PROJECTS

Smart Power Solution Website
- Responsive website with smooth animations built using HTML, CSS, and JavaScript.
- smart-power-solution.vercel.app/"

Villa Booking Website
- React & Tailwind CSS project featuring a clean, modern UI.
- ivilla.vercel.app/

React user management-crud
- A fully functional React User Management CRUD Application built using React.js and Axios with live API integration from MockAPI.io. Users can create, read, update, and delete records dynamically. The app uses Material UI (MUI) for a clean and responsive interface and React Router for page navigation.
- react-user-management-crud.vercel.app/

learning-projects
- A collection of hands-on projects built using HTML, CSS, and JavaScript to strengthen my web development skills.
- ilearning-projects.vercel.app/
